## LESS ROAD MORE TREK

Grana Valley invites you to live the experience of climbing from 800 to 2500m in less than 30 km. Without traffic! And once you venture out of the car through the maze of trails and paths that our ancestors plot and characters between history and legend: merchants, farmers, adventurers, witches, Saracen, Napoleon, Queen Giovanna traveled .

We don't offer you impossible glaciers and climbing, but the show of flowers that bloom between the Alpes Maritimes and Cozie, pastures and quiet villages, a silence broken only by the sound and the echoes of the stories belonging to men that walked these paths before us.

Four days of trekking, nature, emotions and gastronomy... discovering the highest pastorale land of the valley, the places where born one of the most important group of resistant at the end of the second world war, places where millions of years ago the sea left important traces... And much more!!!

Each corner of our valley tells us a story, and we know them! Leave at home the your scientific soul, and closing your eyes, leave your heart listen our legend...

It's raining? No matter!! In Grana Valley many treasures are "covered"... so the rain is not a matter, but only a different way...
